

# Coeliac Champion

As a candidate for the Scottish Parliament, I pledge to be a champion for people with coeliac disease across Scotland.

### **Deliver a “Once for Scotland” pathway:**

Implement the updated national coeliac pathway consistently across all Health Boards

### **Empower our workforce:**

Invest in training for GPs and allied health professionals, appoint a national clinical lead for coeliac disease

### **Strengthen diagnostics:**

Expand appropriate no-biopsy diagnosis, lower testing thresholds and standardise adult serology reporting across Wales

### **Strengthen post-diagnosis care:**

Expand specialist dietetic capacity and ensure annual reviews are reliably delivered via the Gluten-Free Food Service, supported by digital tools.

### **Review services nationally:**

Commission a national review of coeliac services against forthcoming best practice BSG guidance.
