

# SECTION I: ABOUT US

# ABOUT COELIAC UK

Coeliac UK is the charity for people who need to live without gluten. We provide independent, trustworthy advice and support, strive for better gluten free food in more places, and fund crucial research to manage the impacts of gluten and find answers to coeliac disease. And we do it all so that one day, no one's life will be limited by gluten.

## **Our mission**

We will improve the lives of people living without gluten, by:

- Providing the evidence based, independent, expert information and support people need.
- Being an expert voice for the gluten free community.
- Being a strong advocate for better diagnosis of coeliac disease, better care, and better access to gluten free food in and out of the home.
- Investing in research into the nature and effects of gluten – and one day overcoming coeliac disease.

## **Informed**

Our work is backed by evidence, so we can be a trusted voice, advocate and partner for our community.

## **Independent**

Everything we say and do is based on achieving the best outcome for our community, and that only. We never let relationships with business, government or others get in the way.

## **Illuminating**

We have a huge amount of expert knowledge available to us – but we make it clear and simple, and prioritise what people need, when they need it most. That's how we change lives.

# CONTACT INFORMATION

Coeliac UK staff are here to help and support your local group. From providing leaflets and headed paper, to designing new merchandise for your events, to speaking at events, to linking with the charity's campaigns to working with hospitals or restaurants in your area to go gluten free.

Please do not hesitate to get in touch by phone, email or letter.
