

SUFFERING IS NOT A CHOICE

Coeliac UK is launching a Research Fund to boost research efforts and find answers to this complex disease so that in the future no one's life is limited by gluten.

Our goal is to raise £5 million by 2020 to reconfirm our commitment to high quality and innovative research.

Let's all support life changing discoveries

Our increasing awareness of how coeliac disease is impacting people's lives is creating an even greater need for understanding through research. Continued suffering simply isn't a choice.

Being diagnosed with coeliac disease brings with it a complete change in way of life but also a new sense of responsibility to pull together as a community and do something.

No other charity in the UK aims to achieve the goals of the Research Fund. And, by completing this form and providing a donation, each one of us can take a vital step towards achieving them. If we don't, who will?

After years of unrecognised symptoms, John was eventually diagnosed six years ago with refractory type 2 coeliac disease, a version of coeliac disease that is not responsive to the gluten free diet.

Maureen's balance problems due to neurological damage from coeliac disease mean she is now reliant on a wheelchair.
