

GOELIAC UK RESEARCH
CONFERENCE 2018 CPD
QUESTIONS

Follow up of adult coeliac disease patients to prevent further complications– Professor Chris Mulder

Please type your answers below and print for your records or print this document and complete by hand.

Q1	Which malignancies are more and less common in people with coeliac disease compared to the general population?
A	
Q2	There is a lack of literature available on spleen function in coeliac disease. What is Professor Mulder's experience of hyposplenism in his clinic?
A	
Q3	Are you aware of Coeliac UK recommendations for vaccination in coeliac disease? Are these followed in your practice? Read more about these recommendations on our website.
A	
Q4	Why may atherosclerosis be seen more commonly in patients with coeliac disease?
A	

After answering these questions, should you require any further information, please contact us at ruth.passmore@coeliac.org.uk. You can also discuss this further on our HCP forum: www.coeliac.org.uk/hcp-forum.
