Overlooking the canal they serve a fantastic variety of gluten free food not too expensive. Good selection of gluten free meat dishes, it is well worth a visit especially for special occasions or a huge treat. They also have restaurants in Middlesex and two in Surrey.

They have totally separate fryers & all other cooking utensils are separate for GF & Non-GF. They have a decent sized menu too, with fried halloumi!

Charlie's Chippy use separate fryers for gluten free frying. Delicious food!

I was gluten free for 3 months before I found this place! Honestly didn't know I'd ever be able to have fish and chips again! The food was amazing, super quick and didn't have to wait long, and the staff are very confident with the gluten free foods so no concerns something might go wrong :)
My family will all eat here when we have fish and chips night so we can still enjoy the meal together, pricing is really good even for gluten free stuff!!
